Ditch the Keys is part of a yearly campaign to raise awareness about the dangers of ground-level ozone. Ground-level ozone is the bad type of ozone that is created when pollutants such as vehicle exhaust and industrial emissions mix with sunlight.

Do your part to reduce ground-level ozone by asking your family to limit trips in the car.

Help protect air quality by using alternate modes of transportation:

- Ride the bus to school or work
- Walk or ride your bike
- Carpool with friends and family

Register to win some great prizes from May to September at DitchtheKeys.com.

May - Bike to Work or School

June - Ride the Bus

July - Telecommute or Carpool

August - Make a Difference

September - Walk

* Prizes may include a bicycle, a fitbit, running shoes, restaurant gift cards and more.

Ozone Action Days partners: Metroplan, the Arkansas Department of Transportation (ArDOT), Rock Region METRO, Bicycle Advocacy of Central Arkansas (BACA), Arkansas Department of Environmental Quality (ADEQ), U.S. Department of Transportation (DOT), and the Cities of Little Rock and North Little Rock.
